

Your Career Interest Questions

Name/Surname

1. Current Professional Situation and Achievements

Imagine you are explaining your current professional role and responsibilities to a new colleague, including the challenges you've overcome and your biggest achievements so far. What would you tell them?

2. Strengths, Development Areas, and Technological and Social Skills

How would a colleague, who knows you well and whose critical yet supportive opinion you value, describe your key strengths, areas for development, and your technological and social skills?

3. Long-Term Career Goals and Alternative Career Paths

Imagine you could travel to the future and see your ideal professional position in five years: your tasks and responsibilities, the company or institution, your role, and your typical workday. How would you describe this position, what excites you about it, and what do you find motivating and engaging?

4. Motivations, Values, and Work-Life Balance

What motivates you in your career, what personal values guide your decisions, and how do you balance these with your work and personal life?

5. Networking, Professional Development, and Support

What resources and support systems, such as professional development opportunities, networks, and mentoring, have you used to advance your career? How do you plan to continue using and expanding these to achieve your future career goals?
